

LT-4200 SW v1.00 Release Notes

Product Identification

Product Name: LT-4200 Satellite Communications System (Iridium Certus® 200)

Unit and Part Numbers: LT-4210 Control Unit P/N: 51-102664

LT-3120 Handset P/N: 51-100988

LT-3121 Cradle P/N: 51-101181

LT-4230 Antenna Unit P/N: 51-102640 (Maritime)

SW Identification

SW Part Number: 71-102662

SW Version: 1.00R Build Number: 0019

Release Date: 10. March 2023

SW Update: Optional Recommended Mandatory

File Name: LT-4200-v1.00R-0019.lti File size: 39.0 MB

Checksum (MD5): 8fd919c82f9fc3a946e9c673e8311406

New functions:

- Initial software release for the LT-4200 Certus® 200 System (see the LT-4200 User & Installation Manual for details).

Changes:

N/A

Bug fixes:

N/A

SW Update Procedure

Follow this procedure to upload new software to the LT-4200 system:

- 1) Connect the LT-4210 Control Unit directly to a PC using an Ethernet cable or connect the LT-4210 Control Unit to a Local Area Network (LAN), where a PC is connected.
- 2) Identify the IP address that is assigned to the LT-4210 Control Unit. The IP address can be read out from the UI Display interface (Menu -> System -> Network: IP Address). The IP address is valid if the 'Link Status' is showing 'Up'. The IP address is assigned dynamically by a DHCP server (default).
- 3) From the PC, start a browser (e.g., Microsoft Edge, Explorer, or Chrome) and type in the IP address, which was identified in the LT-4210 Control Unit (e.g., 169.254.1.1).
- 4) The browser might show you a warning about an invalid web server certificate. Make sure, that you have typed in the correct IP address.
- 5) Press 'Details' and you will be presented for an extended page view (including a link), which will direct you to the LT-4200 System dashboard 'Go on to the webpage (Not recommended)'. You will now see the LT-4200 system dashboard (default login username: admin / password: admin).
- 6) Select the 'Software update' webpage and click the 'Browse...' button to select the LT-4200 system file, which must be uploaded to the system. The LT-4200 software image has the following filename (example): LT-4200-v1.00R-0019.Iti
- 7) Finally click the 'Upload' button to start the upload of the new software image. The upload and installation of the software image will take a few minutes. Progress bars can be monitored on the software update web page, while the software update is on-going.
- 8) The LT-4200 system will reboot once the software image is installed in both the control unit and antenna unit.
